

Wymondham Photographic Society is a popular photographic club covering Wymondham and the surrounding area. We are a friendly and social group dedicated to enjoying the art and practice of photography, with a range of activities including, competitions, practical sessions, informative talks and social events, and a continuous improvement programme to enhance skills. We meet weekly on Tuesdays (except on major holidays) from 8-10pm at the Wymondham Dell Bowls Centre (opposite the Leisure Centre) from September through to June. Our spacious venue is easy to find, has parking facilities and is equipped with a full bar which also serves tea and coffee.

We welcome all abilities, from beginners to experts, our aim being to enjoy photography and nurture and inspire each other so that we can all get the most from this pastime. You don't need the latest Digital SLR camera to join in, just an interest in photography.

New members are always welcome, and we encourage you to come along to a meeting and get a feel for what our club is about.

We hope to see you at a meeting!

See our website for more details of the club and events.
